<input checked="" type="checkbox"/>	Title	First Name	Last Name	Email Address	( )- - - - -	( )- - - - -	

Query a partner record by typing the name here in search

At least primary contact is Required

- Click on trading partner record from summary page to modify/update the details
- Partner # is based on the configuration in application configuration.
- If it is set to be 'automatic', system will assign based on the sequence or if it is set to be manual then user should provide the number
- At least one contact should be defined with first name, last name, email and phone

## Update Trading Partners

- “General” section contains the type and relationship with the partner
- All fields with (\*) are mandatory
- Payment terms dropdown allows to select the payment terms that are already defined in the application configuration by the user
- Payment terms information will be defaulted to the customer invoices on shipments made
- To end the business relationship with a trading partner, end date information needs to be updated on the record
- Click on ‘Save’ to save the changes

### Third Party Charges

[Charge Types](#)

☐ Show inactive

 SAVE

CHARGE CODE	INTERNAL CODE	CHARGE NAME	ACTIVE	
88		Temperature Recorder		
457		Pre-Inspection		
25		Inspectio		

- Third party charges are additional overheads applied on purchase order apart from item cost that includes temperature recorder, ice etc.
- Charges that the vendor can add on to PO will be shown here and the same will be available to add in purchase order screen charges section
- Charge code represents the industry standard charge code for the charge and If any client uses their internal charge code, it can be mapped in 'internal code' column
- When 'Show Inactive' checkbox is checked in, all inactivated charge codes by the client will be shown
- Click save after updating the charges information

# Thank You
